

Mediband®

worry less, live more

Do you know whether you or your loved ones are being correctly diagnosed, identified, and treated in medical emergencies?

With few suitable products on the market, Mediband® recognises the need for medical awareness bracelets that are lightweight, go-anywhere, easy to identify, hypoallergenic and which people of all ages will wear.

What is Mediband® ?

Mediband® is an international company that specializes in medical condition recognition products. Originally developed because children would not wear traditional medical identification bracelets, Medibands are now worn by all ages from children to adults and in all occasions, even the toughest outdoor sports.

Medical Id Bracelets

Mediband® offers an extensive and ever expanding range of medical wristbands. We cater for conditions such as Diabetes, and Epilepsy as well as Allergies to medications such as Penicillin and Foods such as peanuts, dairy and eggs. In fact, we can even cater for special orders for rare conditions.

Remember, Mediband® Bracelets:

- * Insure against incorrect diagnosis and treatment
- * Raise awareness of your condition
- * Provide vital information to help others help you

Protection you will want to wear

Best of all, Medibands are fun to wear and look great! The trendy designs and attractive colours will appeal to both kids and adults.

Order online at www.mediband.com.au

My son is diabetic and I initially ordered the small size 'to try it out' as we have always had trouble keeping bracelets and bands on him. Since we got the Medibands he has not taken them off. Thanks.

Graeme

I have found your service to be second to none. I was kept up to date of the status of my order and couldn't be more rapped when they arrived. I've been waxing lyrical on the diabetes web sites about the wonderful service you can get from this site. Thanks guys you solved a very expensive problem for me.

What a fantastic product!
I purchased the Medibands, for my son who has an allergy to penicillin & his friend who is diabetic. They are both very keen on wearing these fashionable wrist bands that fit them perfectly. The speedy delivery was an added bonus to the peace of mind knowing that my child is wearing it. Thanks so much!

Sandra

Customer Service

At Mediband®, our customers are not just transactions to us. We understand our customers and their concerns, that is why we believe in serving our customers personally and attending to any individual needs or concerns.

We are proud of our ability to supply everyone in the market, from large hospitals, pharmacies and schools thru to individuals.

Please contact us if you require any assistance or have any special requests on **1300 368 980**

The Difference

Unlike the traditional metal bracelets, Medibands are made from food grade silicone, are non-toxic, easily sterilised and 100% hypo-allergenic.

Soft, rounded and pliable edges mean that they are less likely to catch on foreign objects.

They will withstand rough playground pulling but are also designed to snap if enough force is applied if they are caught.

Reliable Delivery and Turn-Around

We understand that prompt and dependable delivery is extremely important to our customers. We ship world-wide and at Mediband®, we guarantee rapid and efficient order turn-around.

Largest range on the market and growing
